Clinical Nursing Background · Multi-Site ICU Experience · Language Acquisition · Intensive Care

Relocation Readiness · Clinical Adaptability · Language Acquisition · 7+ Years ICU · Transplant ICU · ECMO/ECLS · EU Citizen

Seven years of clinical nursing background across Germany's leading cardiac and transplant intensive care units, demonstrating exceptional clinical adaptability across diverse healthcare systems. Proven ability to integrate rapidly into complex, multi-disciplinary teams with clinical exposure to ECMO/ECLS alongside transplant patient care. Currently focused on language acquisition to facilitate a transition into Nordic healthcare environments. Combines deep critical care expertise with strong clinical communication skills and full relocation readiness.

Bavaria
2011

Nordic Career Development

Sep 2025 – Present

Self-directed - Berlin

- Actively engaged in digital language learning and Nordic language acquisition (Finnish) to ensure relocation readiness and seamless integration.
- Preparing for clinical communication in Scandinavian healthcare systems while managing the EEA nursing licence recognition process.

ICU Nurse - Multi-Site Agency

May 2023 – Aug 2025

KCS Medical GmbH & Komorebi Staffing - Berlin

- Demonstrated high clinical adaptability to new healthcare systems through rapid integration across diverse ICU teams, protocols, and electronic documentation platforms.
- Expanded clinical nursing background across multiple high-acuity ICUs, mastering new procedures including TAVI, Mitraclip, and plasmapheresis.
- Maintained rigorous standards in acute dialysis and transplant care while navigating varying institutional cultures and interdisciplinary communication challenges.

ICU Nurse - Cardiac & Transplant ICU (IPS 1)

Jan 2022 – Apr 2023

Deutsches Herzzentrum der Charité (DHZC) - Berlin, cardiac surgical ICU (IPS 1 / WD1i)

- Applied strong clinical nursing background in Germany's premier cardiac centre, collaborating within a multidisciplinary team to manage complex ECMO/ECLS, IABP, and LVAD patients.
- Delivered specialised post-operative ICU nursing for heart and lung transplant patients, overseeing haemodynamic stabilisation and rejection surveillance.
- Adapted to high-acuity clinical demands, ensuring precise immunosuppression monitoring and early mobilisation in a fast-paced environment.

ICU Nurse - Charité Campus Benjamin Franklin

Nov 2021

Charité Universitätsmedizin Berlin - Anästhesiologie & Operative Intensivmedizin

- Showcased clinical adaptability during an interim deployment, quickly mastering the critical care protocols for diverse medical and surgical patients.

ICU Nurse - Herzchirurgische Intensivstation

Nov 2019 – Oct 2021

LMU Klinikum Großhadern (Augustinum) - Munich

- Exhibited exceptional adaptability to new healthcare challenges during a 6-month COVID-19 ICU deployment, managing ventilated patients with complex haemodynamic instability.
- Deepened ICU nursing expertise in post-operative cardiac surgery care, heart transplant management, and ECMO/ECLS clinical exposure.

ICU Nurse - Anästhesiologische Intensivstation

Oct 2017 – Oct 2019

LMU Klinikum Großhadern - Munich

- Established a robust clinical nursing background at a leading European ICU, participating in interdisciplinary weaning discussions and clinical communication.
- Managed complex ARDS, mechanical ventilation, and post-operative care for lung and liver transplant patients.
- Gained critical exposure to ECMO/ECLS patients in respiratory failure settings, alongside severe sepsis and polytrauma management.
