Registered Nurse (EU 5/36/EC) · Clinical Nursing Competence · Relocating to Nordics [in linkedin.com/in/tanja-zierer-882141361](https://www.linkedin.com/in/tanja-zierer-882141361)

Adaptability to New Healthcare Systems · Multi-Site ICU Experience · Intensive Care

EU Citizen · Nordic work auth.

Willingness to Relocate · EU Directive 2005/36/EC · Adaptability · 7+ Years ICU · ECMO/ECLS · Transplant ICU · Cardiac Surgery ICU

Holding a Registered Nurse License (EU 5/36/EC) with seven years of clinical nursing competence across Germany's leading cardiac and transplant intensive care units. Demonstrated adaptability through rapid integration into diverse multidisciplinary teams and multiple high-acuity environments, including ECMO/ECLS clinical exposure and ARDS management. Possesses a strong language learning aptitude and a clear willingness to relocate to Nordic countries, bringing multi-site ICU experience and advanced patient care expertise to a new clinical setting.

IAFW Mainburg / Teaching Hospital Pfaffenhofen a.d. Ilm, Bavaria

2014 – 2017

Mittlere Reife

Paul Gerhard Gesamtschule, Freising, Bavaria

2011

Nordic Career Development

Sep 2025 – Present

Self-directed – Berlin

- Demonstrating language learning commitment through active study of Finnish to prepare for clinical practice in Nordic healthcare.
- Managing the nursing license recognition (EU Directive 2005/36/EC) process to facilitate a planned relocation to Nordic countries.

ICU Nurse – Multi-Site Agency

May 2023 – Aug 2025

KCS Medical GmbH & Komorebi Staffing – Berlin

- Showcased adaptability to new healthcare systems by rapidly integrating across diverse ICU teams, protocols, and electronic documentation systems.
- Expanded clinical nursing competence across multiple high-acuity ICUs, mastering TAVI, Mitraclip, and plasmapheresis beyond prior permanent role scope.
- Delivered expert acute dialysis and transplant care across diverse clinical teams in fast-paced agency deployments.

ICU Nurse – Cardiac & Transplant ICU (IPS 1)

Jan 2022 – Apr 2023

Deutsches Herzzentrum der Charité (DHZC) – Berlin, cardiac surgical ICU (IPS 1 / WD1i)

- Applied advanced clinical nursing competence in post-operative care for heart and lung transplant patients at Germany's premier cardiac centre.
- Participated in clinical decision-making within a multidisciplinary team, managing patients on IABP, Impella, LVAD, RVAD, and ECMO/ECLS.
- Ensured rigorous haemodynamic stabilisation, rejection surveillance, and infection prevention in one of the highest-acuity cardiac environments.

ICU Nurse – Charité Campus Benjamin Franklin

Nov 2021

Charité Universitätsmedizin Berlin – Anästhesiologie & Operative Intensivmedizin

- Demonstrated adaptability to new healthcare systems during an interim deployment, providing critical care for diverse medical and surgical patients.

ICU Nurse – Herzchirurgische Intensivstation

Nov 2019 – Oct 2021

LMU Klinikum Großhadern (Augustinum) – Munich

- Deepened clinical nursing experience in the cardiac surgical ICU, managing heart transplants, IABP, and ECMO/ECLS clinical exposure.
- Adapted rapidly during a 6-month COVID-19 ICU deployment, managing ventilated patients with complex respiratory and haemodynamic instability.

ICU Nurse – Anästhesiologische Intensivstation

Oct 2017 – Oct 2019

LMU Klinikum Großhadern – Munich

- Established a strong clinical nursing foundation at a leading anaesthesiology ICU, covering ARDS management, mechanical ventilation, and complex transplant care.
- Collaborated in weaning discussions and patient monitoring as part of a multidisciplinary clinical team.
- Managed complex sepsis, polytrauma, and post-operative care for lung and liver transplant patients, including ECMO/ECLS exposure.
